WEDNESDAY, SEPTEMBER 28. 1737.

91. 705.

Hague, Sept. 24. O. S.

TWO Pamphlets are re-printed upon Account of the Congress at Antwerp, which when they were first published made some Noise. The one is entitled, *A General Discussion of all the Articles of the Barrier Treaty of the Netherlands, &c.* and was written soon after that Treaty was

concluded. The other, which appeared some Years after it, is entitled, *Motives and Reasons urged by the English, for inducing his Imperial and Catholick Majesty (if it were possible) to receive their inequitable Project of Commerce with the Subjects of the Netherlands; with General Answers in Confutation of the said Motives.* One would be apt to think by the Title that neither of these Pieces was printed in the Dominions of the States-General; so far from it, that the Author of the former ingenuously owns, *Their High Mightinesses would no doubt be better pleased with his Silence than his Arguments*; and yet, notwithstanding this Confession, he thinks it would be using him ill, to censure him for the Freedom with which he explains himself: For, says he, *Their Writers* (meaning those of the States-General) *are not so cautious of what they say, and yet are not silenced for it; the Liberty of Writing, in their Dominions, being unlimited, provided there's nothing in what they write, against their Government.* And adds the Author, *I have observed the very same Rule.*

The Author of the Second Piece comes immediately to the Point: 'The English, says he, give out, that the Subjects of the Austrian Netherlands cannot be without the Produce, the Manufactures, and the Commerce of Great Britain; and that, on the contrary, they, *We English*, can, in general, do without any of the Produce, the Manufactures, and Commerce of the Netherlands.'

The Author, without inquiring whether these two Suppositions are well founded, demands first of all, Whether the Seller has not as much Need of the Buyer, as the Buyer has of the Seller? And, Whether the Necessity or Want of both is not reciprocal? He then proceeds, and says, 'The English must be extremely prejudic'd in their own Favour, and to our Disadvantage, to imagine, as they do, perhaps, that we are not capable of making as good Woollen Stuffs as they are, who learnt the Clothing Trade from us, and have got that Manufacture out of our Hands, either by their Intrigues, or by the tedious Wars which we have suffered for near two Centuries.'

'Thanks to God, we have still Courage and Zeal enough to endeavour to get our Bread, and Industry enough in all Sorts of Arts and Handicrafts, to make ourselves what the English would fain compel us to take from them. The Goodness of our Soil, and the vast Application of our People to Labour, have always convinc'd us, and do still convince us, that we are much better able to subsist without the English, than the English are to subsist without us. As we have Money to purchase of the English their Woollen Manufactures, it would be cheaper for us to buy the Wool itself in Spain, where we might have it with as much Ease as they for our Money, and by which we should gain the Workmanship of it, which is ten Times more than the Materials, without having Occasion to buy the Goods ready made in England. By that Means also we shall begin to re-establish and improve that Navigation, from which the English and Dutch reap so great a Profit to our Prejudice.'

A great Number of Cannon has lately been bought at Amsterdam for the King of Spain; and one of the principal Merchants of that City who has the Commission for it, solicits for Leave to transport them free of all Duty, as was formerly granted by the States to the Czar Peter the Great of Muscovy. Besides the Men of War which are building for the King of Spain in the Harbours of the Republick of Genoa, and that which has been bought for him of the City of Hamburgh, we are assured that he has several others upon the Stocks in the Bay of Biscay.

Letters from Petersburg say, that the Count de

Munich is return'd on this Side of the Bog, in order to rest his Men and Horses, they have been so much fatigu'd by their long Marches, and the excessive Hot Weather. They say positively, that some Thousand Men are employ'd in repairing the Fortifications of Kinburn, which, if true, is a Sign that the Muscovites are resolv'd to preserve Oczakow, notwithstanding the Distance of that City from the Frontiers.

Those from Rome say, the Accommodation being happily concluded betwixt the Holy See and Spain, the Pope had resolv'd to make a Promotion of Cardinals on the 12th Inst. O. S.

They write from Paris, that tho' some People give out that the King has enter'd into no Engagements with regard to the Isle of Corfica, yet his Majesty is actually sending 26 Battalions to the Assistance of the Genoeise, under the Command of the Count de Lautrec; and that the first Embarkation is fix'd for the 14th of November next.

The Neapolitan and Sicilian Monarch has resolv'd to establish a Military Order in Honour of St. Januarius, the Patron of Naples, and propos'd to create 60 Knights of that Order, on the 8th Inst. O. S. which is the Festival of the Liquefaction of that Saint's Blood. Mean time he has given Directions for making the Collars and Crosses, of which some will come to 12 or 13,000 Ducats, three of 'em being to be richer in ordinary, viz. one for the King himself, and the other two for the Infantes his Brothers.

They write from Vienna, that besides the Tax for the War against the Turks, 28,000 Men more are to be rais'd in the Emperor's Hereditary Countries, which is at the Rate of a Man to every Two and twentieth House.

The Letters from Paris say, that on last Friday Se'nnight the Duke and Dutchess of Dorset and their Daughter, set out to lie at Chantilly, in their Way for England; but that they have left their two Sons behind at Paris.

They tell us, that a Grocer of that City, not less than Four-score Years of Age, having married a young Damsel that had her Fortune to seek, was like to be a Widower the very next Day after the Ceremony; for his young Wife, who was already weary of the Nuptial Yoke, having contriv'd to run away with her Gallant, who lay in wait at a private House to carry her off, sent him the Value of 2000 Livres in Cash, and as much in Plate, and was actually packing up several other Things of Consequence to send to him; but was caught in the Fact, which immediately getting Wind, the Intrigue was defeated, and Jason had but just Time to make his Escape, leaving the good Man in intire Possession of his Wife and his Fleece.

There's Advice from divers Countries, that the King Don Carlos is about martyring the Eldest of the Bavarian Princesses.

The same Day her Majesty was pleas'd to make young Count Munich one of her Chamberlains.

Petersbourg, Sept. 3. Velt Marshal Munich continues still with the greatest Part of his Army on this Side the River Bog; and Velt Marshal Lacy is still encamped on the North-Side of the Gnilo-More, ready to re-enter the Crimea, or to join Velt Marshal Munich's Army, in Case they should resolve to make any other Expedition this Year. All the Foreign Ministers and Russian Nobility were invited the 28th of last Month to come to Court in the Morning, where there was a magnificent Entertainment, and at Night a Ball, on Account of the good Success her Majesty's Forces have had this Campaign over the Turks and Tartars.

The Woman was the next Morning taken before a Justice, who committed her to Gaol, to which Place she was attended by Abundance of People, shouting her all the Way. She says she had for some Time past designed the Attempt, and only wish'd she had done it effectually. ## Concerning Gleets and Seminal Weakness of all Kinds.

**ALL** judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleet and Seminal Weakness, whether occasion'd by too severe purging for Venereal Injuries, Strains, Pollution sui, or any other Cause whatever, and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infect the whole Nervous System, often bring on Hectic Fevers, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleet, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diarrhoea of Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALANICK RESTRICTIVE ELECTUARY, now published for a general Cure, after having for many Years been experience'd never once to fail perfectly curing the most Stubborn Gleet known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, which it almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALANICK RESTRICTIVE ELECTUARY is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Days of Contitution of any Kind, and particularly in the Back, Reins, Seminal and Urinary Vessels to an immense Degree, inasmuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out, and all Persons fatigu'd with Gleet or Seminal Weakness of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surpris'd at it.

When a Medicine will infallibly accomplish such a speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and this All who ever took it for any of the above-mentioned Purposes, have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Baldwin's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Host of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with, succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balanick Electuary.

## An infallible and speedy CURE for the HEMORRHOIDS or PILES.

**BY** a peculiar Specifick Confection, which has been found on large and long Trial, to be of Efficacy and Virtues, to be the most sovereign Remedy that ever was known for this most troublesome Distemper, common to both Sexes, and all Ages; and is a very pleasant Medicine to take, and most agreeable to the Palate of the most delicate &c. and is therefore for the common Good of Mankind, published after this Manner, that all such Persons of either Sex, or any Age, may know where to have present Relief, and in a few Days a perfect Cure, let their Case be ever so bad, or the Piles of any Kind, viz. inward or outward, fixed or bleeding, or of the worst Sort that ever was known.

This pleasant and delightful Confection, which is compounded with much Labour and Care, of the choicest Ingredients in the whole Art of Physick, infallibly cures all great and good Purpose; for it is so certain in its Effects, that not one in five thousand that take it, miss of a perfect Cure, and to safe in Operation, that the most aged, or even young Infants may take it with the greatest Safety; for it neither purges nor causes the least Disorder to the Patient, but operates gently by Urine, and keeps the Body cool and temperate; but it very powerfully rectifies both the Blood and Juices, takes off the Acridness thereof, which is the Cause of this Distemper, and destroys its Root and Branch, as the many thousands that have taken it find to their unspeakable Comfort and Satisfaction.

And is sold by the Author's Leave for 3 s. 6 d. each Pot, at Mr. Richard's Tin-shop the Sign of the Black Horse in Fleet-Street, near Fleet Bridge; and no where else in England.
